

News Release

London, ON, November 3, 2008 - - For Immediate Release

MiComPro Ltd. is pleased to announce that the latest version of **PartsHandler** Jobber Management software that contains the electronic catalog **WHI eCatalog JX**, is available for customer demonstration. Customers are *invited* to contact MiComPro to register for conference calls. Conference calls will start the week of November 3rd and are limited to eight customers per session. Attached to this release are two screen shots of the new Catalog showing the **NEW** Year/Make/Model/Engine drop down and the **NEW** part selection screen.

“We are very excited to present this new feature of **PartsHandler** to our customer base. The new electronic catalogue interface will increase order entry productivity, with features like: product pictures, real time pricing and inventory levels, Vehicle Identification Number lookup, flexible Graphic User Interface and real time access to product Interchange and Buyers Guide” said David Geoffrey, President of MiComPro.

“Call or email MiComPro today to register”

PartsHandler is developed and supported by MiComPro; MiComPro is a Software Developer, established in 1990, specializing in the Distribution Industry. MiComPro’s customers are located across Canada and the United States with the majority of customers in the automotive distribution after market.
