

News Release

London, ON, October 15, 2008 - - For Immediate Release

MiComPro Ltd. is pleased to announce that the latest version of **PartsHandler** Jobber Management software has been enhanced to include the integration of **WHI eCatalog JX**. This new parts catalogue interface will enhance the presentation and user interface of your **PartsHandler electronic catalogue**.

“The new electronic catalogue interface will increase order entry productivity, with features like: product pictures, real time pricing and inventory levels, Vehicle Identification Number lookup, flexible Graphic User Interface and real time access to product Interchange and Buyers Guide” said David Geoffrey, President of MiComPro. “This is just one of the new features that will be released with PartsHandler 11.0.”

Conference call dates will be announced shortly to introduce **WHI eCatalog JX** and to demonstrate the new features of **PartsHandler 11.0**.

PartsHandler is developed and supported by MiComPro; MiComPro is a Software Developer, established in 1990, specializing in the Distribution Industry. MiComPro’s customers are located across Canada and the United States with the majority of customers in the automotive distribution after market.
